

public meetings being held by the Commission in late November and early December 1995.

The Commission was established by the EPA on November 13, 1991 (see 56 FR 57522, November 12, 1991). All meetings are open to the public. These meetings are not subject to provisions of the Federal Advisory Committee Act, Public Law 92-463, as amended.

FOR FURTHER INFORMATION CONTACT: Mr. John T. Leary, Project Manager for the Grand Canyon Visibility Transport Commission, Western Governor's Association, 600 17th Street, Suite 1705, South Tower, Denver, Colorado 80202; telephone number (303) 623-9378; facsimile machine number (303) 534-7309.

Dated: October 22, 1995.

Felicia Marcus,

Regional Administrator, U.S. Environmental Protection Agency, Region 9.

Science Advisory Board; Drinking Water Committee; Notification of Public Advisory Committee Meeting

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Drinking Water Committee (DWC) of the Science Advisory Board (SAB) will hold a teleconference meeting on Thursday, November 9, 1995 from 2:30 to 4:30 pm eastern time. This teleconference is open to the public. For further information concerning the teleconference, please contact the individuals listed below. Documents that are the subject of SAB reviews are normally available from the originating EPA office and are *not* available from the SAB Office.

The purpose of the Teleconference is to conduct a preliminary discussion of the Committee's review of the Environmental Protection Agency's *Draft Research Plan for Microbial Pathogens and Disinfection By-Products in Drinking Water*. During the teleconference there will be an overview of the Draft Research Plan presented by Agency staff, with opportunities for Committee Members to ask clarification questions and to discuss the charge for the review. The Committee will formally review the Draft Research Plan in a public meeting on January 9-10, 1996.

The draft charge to the Drinking Water Committee is as follows: (a) Has EPA identified the correct research issues to be addressed to support the

development of the Interim and long term Enhanced Surface Water Treatment Rules, Ground Water Disinfection Rule and Stage 2 Disinfectants/Disinfectant Byproducts rule? (b) Do the research topic areas or projects underway or envisioned under the five year plan appear to adequately address the issues? Should any other research topic area be funded in lieu or in addition to those presented? (c) Has EPA assigned appropriate priorities to the research?

Single copies of the Draft Research Plan are available by calling Ms. Gail Robarge, U.S. Environmental Protection Agency, Office of Research and Development, 401 M Street, S.W., Washington, D.C. 20460; Telephone: (202) 260-9101.

Any member of the public wishing to register for the teleconference should contact Mrs. Mary Winston, Staff Secretary, Drinking Water Committee, Science Advisory Board (1400F), U.S. EPA, Washington, DC 20460, telephone (202) 260-6552 or fax (202) 260-7118. Procedures for connecting to the teleconference will be released to the registrants prior to the meeting. It is expected that a room will be available at the US EPA Headquarters Building, 401 M Street, SW, Washington, DC for those who wish to attend an SAB link to the teleconference. Members of the public desiring additional information about the meeting should contact Mr. Robert Flaak, Designated Federal Official, Drinking Water Committee, Science Advisory Board (1400F), US EPA, 401 M Street, SW, Washington, DC 20460, by telephone at (202) 260-5133, fax at (202) 260-7118, or via The INTERNET at: Flaak.Robert@EPAMAIL.EPA.GOV.

The Committee expects to review the Draft Research Plan in a face-to-face public session on January 9-10, 1996. That meeting will be announced in a subsequent Federal Register Notice. Public comments will not be taken during the November 9, 1995 teleconference, however, they will be taken during the January meeting. Please contact Mr. Flaak for further details.

Dated: October 20, 1995.

A. Robert Flaak,

Acting Staff Director, Science Advisory Board.

Open Forum on Whole Effluent Toxicity Workshop

During September 1995, the Society of Environmental Toxicology and

Chemistry (SETAC) sponsored a Workshop on Whole-Effluent Toxicity (WET) at the University of Michigan Biological Station near Pellston, Michigan. Funding for the Workshop was provided by the American Industrial Health Council, the Association of Metropolitan Sewerage Agencies, and the U.S. Environmental Protection Agency (EPA), and the workshop was administered by the SETAC Foundation for Environmental Education. EPA's WET program uses WET testing to help ensure protection of the Nation's waters. WET testing is viewed as one of the most direct ways to ensure adherence to the "narrative criterion" that states that "no toxics in toxic amounts" shall be discharged. Workshop results should give valuable insight into the strengths and weaknesses of technical aspects of WET testing. The Workshop was attended by 45 nationally recognized scientists from government, academia, and business who were invited to participate based on their expertise and experience in the WET program. The primary topic areas addressed during the Workshop included (1) Laboratory Test Methods/Appropriate Endpoints, (2) Effluent Toxicity Testing Variability, (3) Field Assessments (in relation to aquatic responses to effluents), and (4) Predicting Receiving System Impacts From Whole Effluent Toxicity Tests. Activities began with discussion-initiation presentations on the four topic areas. Group breakout sessions were then held to examine in depth the issues introduced in the discussion sessions, to reach a consensus on the state of the science in each of these topic areas, and to agree upon issues in the WET program that require further consideration or investigation. Written proceedings were drafted by the workgroups, and those proceedings are in the process of being reviewed and edited prior to being published by SETAC Press.

On Tuesday, December 5, 1995, from 8:30 a.m. until 6:00 p.m. at the Crystal City Marriott (near the Washington National Airport), SETAC will hold an Open Forum to report the results of the Pellston WET Workshop. The primary purpose of the Forum is to provide attendees (1) an overview of key technical issues and conclusions from the Workshop; (2) the opportunity for Forum attendees to make brief information statements regarding their perspectives on technical issues discussed at the Workshop; and (3) the opportunity for a dialogue between Forum attendees and Workshop participants.

In order to plan for adequate seating and to order refreshments, attendees must communicate their plans to attend the Open Forum by November 21, 1995. Mail, fax, or E-mail your name and affiliation to: SETAC-WET Open Forum, 1010 North 12th Avenue, Pensacola, FL 32501-3370; the fax number is (904) 469-9778; and the E-mail address is setac@setac.org.

Greg Schiefer, Assistant Executive Director, Society of Environmental Toxicology and Chemistry, 1010 North 12th Avenue, Pensacola, Florida 32501-3370, USA, TEL 904-469-1500, FAX 904-469-9778, e-mail schiefer@setac.org.

Dated: October 26, 1995.

Donna K. Reed,
Workshop Trichair.

[OPP-30394; FRL-4979-7]

Certain Companies; Applications to Register Pesticide Products

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces receipt of applications to register pesticide products containing new active ingredients not included in any previously registered products and four Transgenic Plant Pesticides pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

DATES: Written comments must be submitted by December 1, 1995.

ADDRESSES: By mail, submit written comments identified by the document control number [OPP-30394] and the file symbols to: Public Response and Program Resources Branch, Field Operations Divisions (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Environmental Protection Agency, Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will be accepted on disks in Wordperfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPP-

30394]. No "Confidential Business Information" (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed online at many Federal Depository Libraries. Additional information on electronic submission can be found below in this document.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Michael Mendelsohn, Biopesticides and Pollution Prevention Division (7501W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. CS51B6, Westfield Building North Tower, 2800 Crystal Drive, Arlington, VA 22202, (703-308-8715); e-mail: mendelsohn.mike@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA received an applications as follows to register pesticide products containing active ingredients not included in any previously registered products and Transgenic Plant Pesticides pursuant to the provisions of section 3(c)(4) of FIFRA. Notice of receipt of these applications does not imply a decision by the Agency on the applications.

Products Containing Active Ingredients Not Included In Any Previously Registered Products

1. File Symbol: 100-TTA. Applicant: Ciba-Geigy Corporation, Ciba Crop Protection, Greensboro NC 27419. Product name: Able Biological Insecticide. Insecticide. Active ingredient: *Bacillus thuringiensis* var. *kurstaki* strain M-200 at 6.0 percent. Proposed classification/Use: None. For the control of lepidopterous insect pests of tree fruits, small fruits, vegetables, tree nuts, alfalfa, corn, cotton, and soybeans.

2. File Symbol: 100-TTL. Applicant: Ciba-Geigy Corp. Product name: Technical CGA -269941. Insecticide. Active ingredient: *Bacillus thuringiensis*

var. *kurstaki* strain M-200 at 12.0 percent. Proposed classification/Use: None. For formulation into end-use products for control of lepidopterous insect pests of tree fruits, small fruits, vegetables, tree nuts, herbs and spices as well as alfalfa, corn, peanuts, cotton, and soybeans.

3. File Symbol: 524-UIA. Applicant: Monsanto Company, 700 Chesterfield Parkway North, St. Louis, MO 63198. Product name: *Bacillus thuringiensis* subsp. *kurstaki* Insect Control Protein (CryIA(b)). Active ingredient: *Bacillus thuringiensis* subsp. *kurstaki* delta-endotoxin as produced in corn by a cryIA(b) gene and its controlling sequences. Proposed classification/Use: None. For full commercial use and seed propagation.

4. File Symbol: 524-UIO. Applicant: Monsanto Co. Product name: *Bacillus thuringiensis* subsp. *kurstaki* (B.t.k.) Insect Control Protein. Active ingredient: *Bacillus thuringiensis* subsp. *kurstaki* delta-endotoxin as produced in corn by a cryIA(b) gene and its controlling sequences. Proposed classification/Use: None. For full commercial use and seed propagation.

5. File Symbol: 67979-R. Applicant: Northrup King Company, 7500 Olson Memorial Highway, Golden Valley MN 55427. Product name: Northrup King Insect Resistant Corn. Active ingredient: *Bacillus thuringiensis* subsp. *kurstaki* delta-endotoxin as produced in corn by a cryIA(b) gene and its controlling sequences. Proposed classification/Use: None. For seed propagation.

6. File Symbol: 67979-E. Applicant: Northrup King Co. Product name: Northrup King Insect Resistant Corn II. Active ingredient: *Bacillus thuringiensis* subsp. *kurstaki* delta-endotoxin as produced in corn by a cryIA(b) gene and its controlling sequences. Proposed classification/Use: None. For full commercial use and seed propagation.

Notice of approval or denial of an application to register a pesticide product will be announced in the Federal Register. The procedure for requesting data will be given in the Federal Register if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

A record has been established for this notice under docket number [OPP-30394] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of
